Tidy Piping...

Neat Installation

Compact Install

Boiler Installation

"We specialise in boiler installation. Whether this be a conversion, new installation or replacement of your old boiler.

We take pride in our workmanship and safety record which has resulted in an excellent reputation.

Each of our boiler installations includes a chemical flush, Magnafilter, copper pipe work and wireless thermostat. We also recommend a full power flush at a reduced cost during the installation.

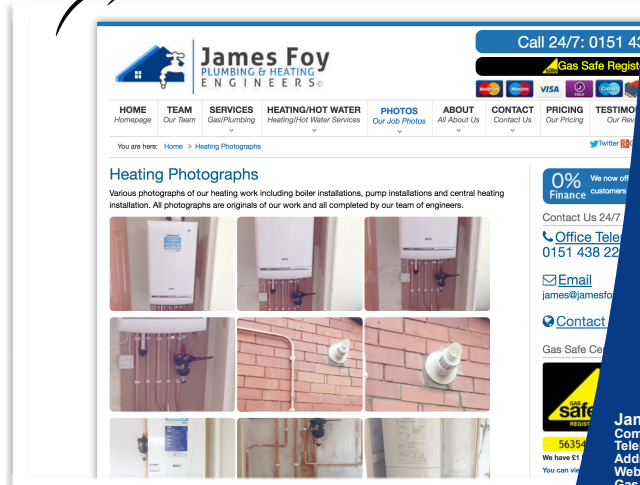

Since 2016 we began offering customer finance on boiler installations ranging from 0% over 6 months to 60 months to help our customers spread the cost of installation.

We fit many low end, mid-end and high boilers including Worcester, Vaillant, Ideal, Baxi, Glowworm and Intergas.

If you have received a quotation and have questions or are thinking of a new installation, please don't hesitate to contact us!"

"Had a new boiler installed by James Foy Plumbing. The work was carried out professionally & on time. Big thanks to John who was professional & friendly & also to Dan who assisted John with the work. I would have no hesitation in recommending their services." - Mr & Mrs Lee, Stockbridge Village
